

SENSOR SYSTEM CONFIGURATIONS

Four sensor system configurations can be produced:

1. **One Part System** - the fiberoptic cable is not detachable from the amplifier.
2. **Two Part System** - has a cable-mounted or amplifier bulkhead-mounted connector.
3. **Three Part Vacuum Passthru System** - has a separate vacuum passthru flange.
4. **Three Part Extension Cable System**- has two in-line cable connectors.

Model Number Format:

D6-AB1C1ET1 The basic model number is followed by the letters in alphabetical order designating sensor options.

1. D100
2. D100-B (in-line) or D100-B1 (bulkhead)
3. D100-Bv2
4. D100-2B
